

Dec 2019:

It was lonely running the month end report ! I miss John being there at cash out waiting on me to print the reports.

Sales were down in part due to weather and being low on appliances so the numbers are not as good as expected. Christmas stock is reduced to a small area in the basement.

Pickups have slowed and that has given us a great opportunity to clean house The trailer is full with sold items at the rear so they will be easy to pull out.

The mountain of bags continues to grow and we will have to move some downstairs again to bring the pile down to size.

The truck is at Martins garage waiting assessment and possible repair , we are using hanks trailer and Egberts truck so no panic to have the repair done.

The store looks 100 % better after a bit of an overhaul 1st week of Jan Many thanks to all who came out!

We will bring out selected pieces a little bit at a time to keep the store looking good Instead of overloading the store.

I will be away Jan 16—31 Jenny has offered to cover 2 Mondays and I have scheduled the girls to cover all shifts so we should be good to go.

That's it that all folks!
